

APICARE - HONEY & HERBS

PRODUCT INGREDIENTS

(All Stearic Acids and Glycerines are plant-based)

All the Manuka Honey used in our products is independently tested and certified as active prior to being added to our skin care products. Due to our beekeeping background, we recognized early the benefits of Manuka Honey and were the first company in the world to use this unique honey in our skin care. We are passionate about honey as a skin care ingredient, so unlike many of our imitators, we continue to use generous volumes of Manuka Honey to ensure that, in combination with natural plant oils and extracts, our products really do work. All Apicare skin care products are free from petrolatum, mineral oils and artificial colors.

CALMING CALENDULA SOAP

HS2

Sodium Palmate
Sodium Cocoate
Glycerin
Fragrance
Calendula Officinalis (Calendula) Flower Oil
Leptospermum Scoparium Mel (Active Manuka Honey)
Titanium Dioxide
Organic Calendula Flower Petals
Sodium Chloride
Tetrasodium EDTA
Sodium Etidronate
